Dean of the Faculties Rowe to retire in May

Anne Rowe, who has served as Florida State University’s dean of the faculties and deputy provost since 2003, will retire at the end of May. A Southern-American literature scholar, she is only the third dean of the faculties in the university’s history, following Daisy Parker Flory, 1969 to 1985, and Steve Edwards, 1985 to 2003.

“Dr. Rowe’s vision for the Office of the Dean of the Faculties — to create a responsive organization that integrates the areas of faculty development, human resource management and academic policy implementation — has been realized,” said President Eric J. Barron. “She has been an advocate for change, encouraging the development and implementation of new processes and programs designed to support the success of all faculty members throughout their careers.”

Interim Provost and Executive Vice President for Academic Affairs Robert B. Bradley also offered praise for Rowe.

“Dean Rowe has long been a tireless advocate for the welfare, well being and success of our faculty,” Bradley said. “She brought her concerns and expertise to the Office of the Dean of the Faculties and incorporated a whole series of technologies into its operation. Through her efforts and those of her staff, she has helped realize the vision for the office that she framed almost eight years ago. She will be missed.”

Faculty Senate President and English Professor Eric C. Walker echoed Bradley.

“Dean Rowe has always been a strong and effective advocate for FSU’s most precious resource, its faculty, and she has been a special source of wise counsel during the recent and ongoing budget crisis threatening the university,” Walker said.

Rowe began her academic career at Florida State as an undergraduate student, earning her Bachelor of Art degree summa cum laude, before completing her master’s and doctoral degrees in 20th-century British and American literature at the University of North Carolina at Chapel Hill. She returned to Florida State’s Department of English in 1972 as an assistant professor, and achieved the rank of associate professor in 1977 and professor in 1984.

In 1993, Rowe received a University Teaching Award and a Teaching Incentive Award.

Throughout her career, Rowe has been an active participant in faculty governance, first as a faculty senator, where she served on numerous committees, and later as the chairwoman of the Department of English, a post she held from 1994 to 1997. In the College of Arts and Sciences, she served as associate dean from 1997 to 2002, and then as senior associate dean from 2002 to 2003.

Under Rowe’s leadership, the Faculty Handbook was updated, numerous academic policies were re-written, and faculty development processes were revised to make use of updated technologies. In 2006, Rowe established the Office of Faculty Recognition to help recognize and acknowledge faculty accomplishments and enhance the university’s stature among peer institutions.

“Rowe is known by the faculty as a great colleague and mentor, and she embodies the true essence of the dean of the faculties by serving as a faculty advocate and a liaison to the administration,” Barron said.
Always thinking about your best interests.

VALIC is now offering a mutual fund program for the State of Florida Optional Retirement Plan.

Advantages of the new program include:

> Nonproprietary mutual fund companies
> No sales charges
> Continued face-to-face services with local financial planning education

Sound future
Let us help you prepare for a secure retirement

STATE is the faculty-staff bulletin of The Florida State University. It is the university’s document of record, published 16 times annually by the Florida State University Communications Group — every three weeks during the fall and spring semesters and monthly during the summer.

Submissions should be emailed to jseay@fsu.edu. Underwriting is handled by the Florida State University Communications Group. For rates, call Crystal Cumbo at (850) 487-3170, ext. 352.

People with disabilities who require special accommodation for any event listed in STATE should call the unit sponsoring the event, or for the hearing or speech impaired, use the Florida Relay Service at 1-800-955-8770 (voice) or 1-800-955-8771 (TDD). Requests for accommodations must be received at least five working days before the event. To receive STATE in an alternative format, call the FSU Student Disability Resource Center at (850) 644-9566.

The deadline for the May 2 - May 29, 2011, issue is 4:30 p.m., WEDNESDAY, APRIL 20.

Council on Research and Creativity gives awards

ARTS AND HUMANITIES
PROGRAM ENHANCEMENT GRANTS

Florida State University’s Council on Research and Creativity awarded Arts and Humanities Program Enhancement Grants (AHPEG) for 2010-2011 to the following faculty members. Of six proposals that were received, five were funded for a total of $66,667 in support:

- **Adam Jolles** (Art History), “The Curatorial Avant-Garde: Surrealism and the Making of the Modern Exhibition, 1925-1941”;
- **Nancy de Grummond** (Classics), “Excavation of an Ancient Well at Cetamura del Chianti”;
- **Birgit Maier-Katkin** (Modern Languages and Linguistics), “Cosmopolitan Contexts: Writing and Reading in a Globalized World”;
- **Judith Rushin** (Art), “Heads, Shoulders, Genes and Toes”; and

SPRING SMALL GRANTS

Twice each year, the Council on Research and Creativity awards $3,000 grants for the Fall and Spring Small Grant Proposal program. Alphabetically, the Spring 2010-2011 awardees, with a total of $9,000 in funding, are:

- **Michael Carrasco** (Art History), “Parallel Worlds: Genre, Discourse and Poetics in Contemporary, Colonial and Classic Maya Literature”;
- **Holly Hanessian** (Art), “The Tipping Point”; and
- **Scott Steppan** (Biological Science), “Evolutionary Diversification of the Philippine Forest Mice Apomys.”

For information on all of the programs of the Council on Research and Creativity, visit www.research.fsu.edu/crc/crc.html.

Ten years and growing: At the 10th anniversary celebration of Florida State’s Garnet and Gold Toastmasters club March 29 in Beth Moor Lounge, President Colleen Thomas (right) introduces featured speaker Mary Wilkes (left), one of the club’s charter members. Garnet and Gold Toastmasters was chartered under the sponsorship of FSU Senior Vice President for Finance and Administration John Carnaghi in March 2001 as a professional development opportunity for university employees. Since then, Garnet and Gold Toastmasters has had 105 members. Of these, 28 have completed the Toastmasters Competent Communicator program, seven have completed an advanced communication program, and five have completed the Competent Leadership program. Members also have participated in local, division and district speaking competitions. Toastmasters International has recognized the club as a Distinguished Club every year of its existence except in 2007-2008, when it was recognized as a Select Distinguished Club. Longtime Florida State University supporters have made a $4.25 million gift that will expand the international reach of The Jim Moran Institute for Global Entrepreneurship based in the College of Business.

President Eric J. Barron and Caryn L. Beck-Dudley, dean of the College of Business, were in South Florida on Monday, April 4, to personally thank donors Jan Moran and The Jim Moran Foundation for their lead donations to establish “The Entrepreneurial University.” The gift agreement was signed at The Jim Moran Foundation’s headquarters in Deerfield Beach, Fla.

The infusion of money — $850,000 a year for five years — will build on The Jim Moran Institute’s mission of cultivating, training and inspiring entrepreneurial leaders. New, more extensive initiatives are planned, including an annual national small business and entrepreneurship conference that will launch in 2012; a prestigious Global Consortium of Entrepreneurship Centers National Conference, to be hosted by The Jim Moran Institute in the near future; and the addition of an associate director of outreach who will support programs that serve minority entrepreneurs and business owners, at no charge, in the South Florida area.

Continuing the generous giving of the late automotive industry legend Jim Moran and the company he founded, JM Family Enterprises Inc., his wife, Jan Moran and The Jim Moran Foundation have pledged their largest gifts yet, placing them among Florida State’s top donors. Nearly $5 million has been given previously.

“When my husband created The Jim Moran Institute for Global Entrepreneurship in 1995, it was his vision that its services would extend far beyond the walls of FSU’s campus,” said Jan Moran. “Since then, thousands of entrepreneurs and small business owners have been served — all at no charge. The intention of this new gift is to continue supporting The Jim Moran Institute’s reach beyond Tallahassee with programs that will have a defining impact and further enhance and promote its prominence and excellence in the study and support of entrepreneurs.

“I am excited that The Jim Moran Institute will now take a leadership role in FSU’s transformation into ‘The Entrepreneurial University,’” said Moran. “I know Jim would be very proud of what has been accomplished and the influence that The Jim Moran Institute will have in the success and future of local and global entrepreneurs creating new jobs and opportunities in our communities.”

Since it was established in 1995, The Jim Moran Institute for Global Entrepreneurship has been providing services and resources to entrepreneurs and business owners across the state, researching entrepreneurship and providing students — from elementary school through the doctoral level — with the chance to learn about and experience entrepreneurship.

Now, The Jim Moran Institute is leading Florida State’s transformation to an entrepreneurial culture, promoting learning for students that will constantly push innovation and creativity forward. Through programs that are launched as a result of Florida State’s “The Entrepreneurial University” initiative, students will be immersed in an idea-generating environment across all disciplines that will result in the creation of new jobs for Florida and beyond.

“This is an exciting time at Florida State,” said Dr. Tim R. Holcomb, executive director of The Jim Moran Institute and the university’s Jim Moran Professor of Management and Entrepreneurship. “With the enthusiastic support of Jan Moran, JM Family Enterprises Inc. and The Jim Moran Foundation, The Jim Moran Institute has significantly expanded its programs over the past two years and has built on the prominent leadership role that it plays in the entrepreneurial community.

“The new programs will enable us to better help business leaders, entrepreneurs and students achieve their dream of entrepreneurial success,” Holcomb said. “This work not only sets the groundwork for us to extend our reach to a more diverse group of entrepreneurial leaders, but also sets Florida State on a course to transform the university culture to one that fosters innovation, creativity and entrepreneurship — an initiative that speaks to the legacy of Jim Moran.”
Think our numbers are impressive? Just wait ’til you meet our bankers.

Capital City Bank operates from a position of strength and in the best interests of our clients. We’re so confident you’ll enjoy the Capital City experience, that we’ll give you $50 just for opening a checking account and signing up for direct deposit.* Make the switch today!

*Receive $50 when you open a checking account and sign up for direct deposit. The $50 will be credited after the first direct deposit which must occur within 45 days of opening the account. Business accounts and interest-bearing accounts are not eligible. Ask a banker for details. Offer expires April 30, 2011.

“The Entrepreneurial University” initiative recognizes the shift in national and state trends from big business to smaller firms — 98.2 percent of U.S. businesses have fewer than 100 employees. In Florida, 99.7 percent of businesses have fewer than 100 employees; however, those businesses provide 82.4 percent of the state’s 8.47 million jobs.

Guided by Jim Moran’s philosophy — “The future belongs to those who prepare for it” — The Jim Moran Institute has expanded its programs over the past 24 months. The recently opened Student Business Incubator, for example, provides office space and resources that can support up to eight early-stage, student-led ventures and connects enterprising students from across Florida State’s campus with mentors from faculty and the business community. The Jim Moran Institute’s Chempreneur® Technology Commercialization program exposes students to different aspects of technology commercialization, giving them first-hand experience in the development of commercial products from research discoveries.

Other expanded programs include a Youth Entrepreneurship Development program that reached more than 1,650 elementary- and high-school students last year, and the highly acclaimed Entrepreneurship Bootcamp for Veterans with Disabilities that has trained and supported more than 300 veterans of the wars in Iraq and Afghanistan. The Jim Moran Institute also offers an undergraduate degree in entrepreneurship and certificate programs in entrepreneurship for business and non-business majors.

“The programs at The Jim Moran Institute are unique,” Barron said. “These programs enable students to delve into their creativity and their passions, and combine them with the rigorous business education they are receiving to realize their dream careers. Through the generosity of Jan Moran and The Jim Moran Foundation, and the eagerness of the university to pursue a more entrepreneurial culture, these programs will be able to transform the way all of our students learn and the way we operate as a university.”

>>Got stuff to get rid of?
Faculty and staff members are invited to donate their unwanted personal items — clothing, books, unopened non-perishable food, room décor, housewares, bicycles — to “Chuck It for Charity,” Florida State’s annual drive to divert such items from local landfills to local relief agencies. Items should be brought to the “Chuck It for Charity” collection warehouse, 1238 Crate St. (off of Lake Bradford Road, south of Airport Drive), on Saturday, April 23, from 9 a.m. to 3 p.m.
Two rising stars on the faculty of the Florida A&M University-Florida State University College of Engineering are recipients of highly competitive research grants offered by the National Science Foundation.

Anant K. Paravastu, an assistant professor of chemical and biomedical engineering, was awarded a five-year NSF Faculty Early Career Development Award, also known as a CAREER Award, totaling $404,992 to advance his research into “designer” proteins, an area of study that could contribute to breakthroughs in the emerging fields of regenerative medicine and nanotechnology.

William S. Oates, an assistant professor of mechanical engineering, received the same award in the amount of $400,000 over five years. Oates’ grant will enable him to continue his work with photoelastomers — materials that change shape in response to light. Knowledge gained from his research could one day lead to the development of highly adaptable “smart” structures with applications in robotics, medicine and energy harvesting, among other areas.

NSF CAREER Awards are designated for scientists who are still in the early stages of their academic careers and are intended to help them build upon previous accomplishments in their areas of research.

“When I heard that I was awarded an NEH, my parents were visiting from Italy and, along with my husband, we celebrated joyously, Italian-style, in our kitchen,” Zanini-Cordi said. “Very few scholars in Italian have won the NEH. Most of us give up hope as we watch our colleagues in other disciplines garner this award. But I persevered, and with the help and support of my colleagues in Modern Languages, my new family, 2010 was my lucky year. I am truly humbled by this honor.”

A member of the faculty since 2005, Zanini-Cordi received her doctorate from the University of California at Berkeley the preceding year.

“These are highly competitive fellowships, and it is not often that a younger scholar emerges from this competition above the applications of more established scholars,” said Joseph Travis, the university’s Robert O. Lawton Distinguished Professor of Biological Science and dean of the College of Arts and Sciences. “That alone tells you how good Professor Zanini-Cordi really is.”
Shelbie Witte, a Florida State University assistant professor of English education, recently received the President's Award from the Florida Council of Teachers of English (FCTE) during the annual conference of the National Council of Teachers of English (NCTE) in Orlando, Fla. The award is given to individuals who have had a substantial effect on the field of English education, beyond the universities where they work.

"She's run the gamut from middle school to high school teacher, from literacy coach to technology liaison, from summer institute director to assistant professor," said FCTE President Megan Pankiewicz.

"More than commendation for my own work, this award serves as recognition for the caliber of students and faculty in the English education program here at Florida State," Witte said.

Witte encourages her students to be actively involved with FCTE, and holds herself to the same standard. Last year, she assisted with the annual Advocacy Day for FCTE, and served as the workshop committee chairwoman for the national conference.

Witte coordinates the English education program within the College of Education’s School of Teacher Education.
• **EMPLOYEE BENEFITS ORIENTATION:** The Benefits Office is pleased to offer an Employee Benefits Orientation program. These training classes are intended as a supplement to the standard online New Employee Orientation, which all employees should complete when initially hired into a salaried position at Florida State. The Human Resources Benefits staff will provide valuable information and answer questions about the various insurance and retirement plans offered by the university. Monthly classes will be held at the Training Center at Stadium Place.

  To register for a session, log in to OMNI, then click through to “Human Resources,” “Self Service,” “Learning and Development” and “Request Training Enrollment.” Reference Course Number “COBEN1,” or Course Name “Employee Benefits Orientation.”

  **Registration questions:** (850) 644-8724.

• **TIAA-CREF ONE-ON-ONE COUNSELING:** A representative from TIAA-CREF will be on campus conducting one-on-one financial advising sessions April 21 and 22 in A7018 University Center (the seventh-floor skybox). To schedule an appointment, call TIAA-CREF at (800) 732-8353.

• **JANUARY/FEBRUARY 2011 RETIREES:**
  - Lillie Beals, application developer/designer, Information Technology Services;
  - Raymond Chamberlain, broadcast engineer, WFSU-TV;
  - Patricia Handschy, ERP analyst III, Enterprise Resource Planning;
  - Yvette Herr, associate director, Panama City Campus-Student Affairs/Finance and Administration;
  - Roxford Johnson, maintenance supervisor, Facilities;
  - Barbara Johnson, coordinator, Dean of Graduate Studies;
  - Ann Lumsden, associate in research, Biological Science;
  - Annie McCall, custodial worker, Building Services;
  - Barbara Palmer, professor, Teacher Education;
  - Susie Pecher, office administrator, Aerospace Studies;
  - Sandra Racoobian, academic support assistant, Medicine Outreach and Advising;
  - Linda Thompson, special assistant, Provost and Vice President of Academic Affairs;
  - Marsha Whittaker, executive support assistant, Education OASIS.

**TRAINING AND ORGANIZATIONAL DEVELOPMENT**

Training opportunities are available at no charge to all Florida State employees through instructor-led and online formats. A current schedule of classes and registration information is available at [www.hr.fsu.edu/train](http://www.hr.fsu.edu/train). Questions: (850) 644-8724.

• **NEW EMPLOYEE ORIENTATION AVAILABLE ONLINE:** Participants must certify their completion of online NEO by faxing a completed copy of the “Certification of Completion and Evaluation of Orientation” form to the Office of Training and Organizational Development as indicated on the form. The link to online new-employee presentations, materials and the certification form can be found at [www.hr.fsu.edu/Content/NEOnline/index.html](http://www.hr.fsu.edu/Content/NEOnline/index.html). Assistance: (850) 644-8724.

**FSU Works Because We Do!**
RECOGNITIONS

Robert C. Ecklund (Educational Psychology and Learning Systems) received his third Mode L. Stone Distinguished Professorship, conferred by the College of Education at its spring faculty meeting.

Martell Teasley, Ph.D. (Social Work), won the Gary Lee Shaffer Award for Academic Contributions to the Field of School Social Work Award, a prestigious award given by the School Social Work Association of America (SSWAA). Martell will receive this award in April at the SSWAA national convention in Myrtle Beach, S.C.

PRESENTATIONS

Arthur A. Raney, Ph.D. (School of Communication), was invited to give the prestigious Robert M. Pockrass Memorial Lecture at The Pennsylvania State University, April. Raney, a leading media effects scholar, discussed “The Ongoing Morality Play: Media Entertainment and Our Sense of Right and Wrong.” Raney also delivered a senior-scholar lecture at the Broadcast Education Association’s featured research symposium in Las Vegas, April 10. Raney was invited to discuss “Moral Complexity and Media Entertainment.”

BYLINES

Tiglet Besara (National High Magnetic Field Laboratory, Department of Chemistry and Biochemistry), Prashant Jain, Ph.D. (National High Magnetic Field Laboratory, Department of Chemistry and Biochemistry), Naresh S. Dalal, Ph.D. (Department of Chemistry and Biochemistry, National High Magnetic Field Laboratory), Philip L. Kuhns, Ph.D. (National High Magnetic Field Laboratory), Arneil P. Reyes, Ph.D. (National High Magnetic Field Laboratory), and Harold W. Kroto, Ph.D. (Department of Chemistry and Biochemistry), co-wrote a paper, “Mechanism of the Order-Disorder Phase Transition, and Glassy Behavior in the Metal-Organic Framework [(CH3)NH3]Zn(HCOO)3,” with Anthony K. Cheetham of the University of Cambridge, U.K., published in the journal PNAS (Proceedings of the National Academies of Sciences), April.
