NEWS AND RESEARCH COMMUNICATIONS

The opening of the Honors, Scholars and Fellows House is the culmination of a dream to offer Florida State University's most talented students a place where they can gather and reach the heights of their accomplishments, according to Provost and Executive Vice President for Academic Affairs **Garnett S. Stokes**.

"This house will serve as a beacon to current and prospective students that Florida State is committed to fostering recognizing and rewarding academic excellence," Stokes said during the March 6 ribbon-cutting ceremony to

officially open the new facility. "It will say to our supporters that we value being pre-eminent — that we can achieve the highest quality by dreaming big and planning wisely."

The house, which is a joint venture between Undergraduate Studies and the Graduate School, serves as an enormous lasting tribute to President **Eric J. Barron** who is leaving FSU to assume the presidency at Penn State University, Stokes said.

"It was his vision to inspire our brightest students by giving them a home, a central place on our campus

"It really doesn't take much oil at all to generate an oil slick, or a layer of floating oil. A few tens of gallons would make a slick that would be prominent enough to see from an airplane."

— **Ian MacDonald**, a professor of oceanography who specializes in oil spills, as quoted March 10 on Weather.com discussing the two large oil slicks in the South China Sea that were first thought to be from Malaysia Airlines Flight 370. The flight went missing March 8. The slicks came from ships, according to the Malaysian Maritime Enforcement Agency.

Access Free Wi-Fi around the World with eduroam

Florida State University faculty, staff and students can now connect to wireless Internet at thousands of universities around the globe at no charge. A new service from **Information Technology Services**, eduroam, helps you stay connected to school, work, family and friends when traveling.

Eduroam is a secure, worldwide Internet access service that allows members to easily connect their mobile device to wireless when visiting other participating institutions, helping to facilitate research collaborations and education around the world.

Having eduroam means quick access to the Internet at member institutions. Whether a researcher traveling overseas, an employee attending a regional symposium or a student studying abroad, all Florida State faculty, staff and students can access immediate Internet connectivity at any participating institution. Currently, eduroam is available at more than 5,000 locations throughout the United States and worldwide. A complete list of participating institutions can be found online at www.eduroam.org.

When visiting a participating campus, simply log on to the "eduroam" network using your Florida State username (**fsuid@fsu.edu**) and password to connect to free, wireless Internet. Apple devices will work automatically, but Windows devices will require some additional authentication. Visit the ITS website (its.fsu.edu) and search for "eduroam" for more information on connecting.

As a reciprocal service, campus visitors from other participating institutions also enjoy free wireless access when visiting Florida State. Within a few days of launching, the eduroam network was being frequented by Florida State guests from as far away as Brazil.

Florida State's existing wireless networks, FSUSecure and FSUWIN, should still be used on main campus for day-to-day wireless access.

If you need assistance connecting to eduroam while traveling, contact the ITS Service Desk at 850-644-HELP.

Program aims to build diverse supplier base

When Florida State developed the 2008-2014 university strategic plan, it incorporated the term "diversity" into its vision and mission statements. As a result, the university placed a stronger emphasis on the importance of diversity in procurement through the university's **Supplier Diversity Program**.

Now **Purchasing Services** is administering the Supplier Diversity Program, which concentrates on three key areas: education and outreach; communications; and reporting and development.

"It is the ultimate goal of the university to have a diverse supplier base that provides the highest quality support services that are consistent with a world-class status the university seeks to achieve," said Purchasing Specialist **Edward Acoff**, who is leading the program. "In order to achieve this status, it requires the asserted efforts of campus departments, requisitioning staff and others that influence the purchase of goods and services."

The program includes three areas: conducting educational training; awareness programs with campus departments; and requisitioning staff both in-house and across campus. The plan also includes providing supplier information and resources to potential suppliers for campus use and showcasing new vendors. Reporting and development will continue to focus on assessment findings and metrics to demonstrate the effect, contributions and return-on-investment from outreach efforts.

Every employee has a responsibility to support the program in the purchase of goods and services according to Supplier Diversity Program Regulation FSU 2.0151.

Purchasing Services and Facilities will provide additional assistance with identifying available, quality and responsible diverse vendors to include minority-, veteran- and women-owned businesses.

For more information on how to include small acts of inclusion or to schedule training, contact Acoff at (850) 645-8207, eacoff@fsu.edu or fsusupplierdiversity@fsu.edu. To learn more, visit www.purchasing.fsu.edu/supplier-diversity or supplierdiversity.fsu.edu. ■

the university to create individual featured projects. This arrangement provides an opportunity for support to new initiatives that may not be funded otherwise. Projects will be available to view online beginning April 1.

"It's important to communicate to the FSU community that any size gift, whether \$100 or \$1,000, will have an impact on the success of the University," said **Marjorie Mahan**, assistant director of Annual Giving at the FSU Foundation. "The featured projects will give donors a chance to support a particular college or unit initiative that speaks to them, whether it's scholarships, student support or new instruments for the Marching Chiefs. We also encourage the use of social media, email and word of mouth throughout the campaign. We want our donors to challenge their families and friends to make a gift."

This year's FSU's Great Give has teamed up with the **25 for 25 Faculty and Staff Campaign**, which supports the university's goal of achieving a top 25 ranking among all public universities, so that any online gift made during this time with denominations of 25 — \$25, \$125 or \$2,500 and so on — will be counted toward both campaigns

Throughout the 36-hour duration of FSU's Great Give, Foundation staff will provide social media updates on the progress of each college and unit's fundraising goals. To receive updates, like us on Facebook at **facebook.com/FSUGreatGive** or follow us on Twitter at **@FSUGreatGive**. ■

where they could gather, share ideas and take advantage of the valuable resources created for them all under one roof," Stokes said.

The house will undoubtedly help Florida State continue to attract the best and brightest students and sends a powerful message about the university's values, Barron said.

"Academic scholarship is central to this campus," he said. "That's why this building is in the center of campus. As an institution, as a faculty and as a staff, we're totally dedicated to helping those hardworking students succeed."

Located on Honors Way in the heart of campus facing Landis Green, the house will bring together major programs that support student achievement, including the Honors Program, the Office of National Fellowships, Office of Undergraduate Research, the graduate Fellows Society, Office of Graduate Fellowships and Awards, the Program for Instructional Excellence and the Office of Postdoctoral Affairs.

"This house will help prepare our high achieving undergraduates and graduate students and postdocs for academic success by fostering intellectual engagement and creating a community of scholars," said **Nancy Marcus**, dean of the Graduate School, who also participated in the ceremony along with **Karen Laughlin**, dean of Undergraduate Studies, and FSU alumnus and former trustee **David Ford**.

"We're calling it a 'house' because we really want it to have the flavor of being a home to these incredibly talented and motivated students," Laughlin said. "It's the people who come into this building who will make it truly come to life."

Ford, who contributed to the establishment of the **Office of National Fellowships** and other programs housed in the Honors, Scholars and Fellows House, said the success of these programs "underscores the depth and the quality of the people who come here to Florida State ... and speaks for itself. ■

Leslie Beitsch, M.D., J.D. (College of Medicine), is the subject of a book chapter, "Leslie Beitsch and the 2001-2003 Clean Indoor Air Campaign," published in the book "Heartland Tobacco War," written by Michael S. Givel and Andrew L. Spivak, and published by Lexington Books, 2013. The book describes Beitsch's appointment as "the primary catalyst for strengthening tobacco control and health advocacy with regard to clean indoor air issues." Beitsch, who currently teaches public health and health policy and serves as the chair of the Department of Medical Humanities and Social Sciences at the College of Medicine, previously served as Oklahoma Commissioner of Health.

I. Michael Navon, Ph.D. (Scientific Computing), co-wrote a book, “Computational Methods for Data Evaluation and Assimilation,” with **Dan Gabriel Cacuci** and **Mihaela Ionescu-Bujor**, published by Chapman and Hall/CRC, 2013. The book explains how to estimate co-variances and confidence intervals from experimental data. It describes algorithms for both unconstrained and constrained minimization of large-scale systems, such as time-dependent variational data assimilation in weather prediction and similar applications in the geophysical sciences. The book also discusses several basic principles of four-dimensional variational assimilation (4D VAR) and highlights specific difficulties in applying 4D VAR to large-scale operational numerical weather prediction models.

TRAINING AND ORGANIZATIONAL DEVELOPMENT

>>NEW — FINANCIAL REPRESENTATIVE CERTIFICATE

SERIES: This certificate series is designed to offer basic understanding of FSU financial policies and procedures to any employee with financial roles or interest. The program will provide tools and resources related to financial responsibilities at Florida State University. Participants must complete nine courses to receive a certificate of completion.

For more information on this certificate and to view the full schedule of classes, visit www.hr.fsu.edu/train. For additional program information or questions, contact the Office of Training and Organizational Development at 644-8724.

>> SPOTLIGHT ON NEW COURSE: Six new classes for employees now available.

■ **HR-Appointment Paperwork Processes:** The appointment paperwork process is pivotal in successfully onboarding new hires to ensure they receive pay, benefits, and system access in a timely manner. The HR-Appointment Paperwork Process course provides hands-on training for Department Representatives and Hiring Managers on the paperwork required to appointment Staff, OPS, and Faculty new hires. Participants will learn how to navigate and complete the appointment paperwork process by using the Payroll Calendar, New Hire Checklists, Appointment Papers Matrix, and other HR resources as their guide. This course counts toward the HR Department Representative Certificate.

■ **Cash Management:** This online course is designed for departmental Cash Collection staff. Cash handling policies, procedures, internal controls and guidelines will be covered. Specific responsibilities for the Biller/Invoicer, Cashier, Cash Point Supervisor, Deposit Preparer and Reconciler will also be detailed.

■ **Purchasing Policies:** This class outlines the fundamentals of the procurement process at FSU and helps departmental personnel understand their role in that process. It covers writing specifications, limits when competition is required and types of solicitations and it provides a brief overview of the FSU EMarket and P-Card. This course counts toward the Financial Representative Certificate.

■ **Property Training Online:** This online course is designed primarily for departmental Property Managers and Property Custodians; however, all departmental financial representatives should find it beneficial. Property definitions and accounting, policies, procedures, and responsibilities will be covered. Forms, queries and resources will also be provided.

■ **Travel Card Online Training:** This online course trains Travel Card holders in the fundamentals and responsibilities of Travel Card policies and procedures. This class is required for new Travel Card applicants or for refresher training on Travel Card policies. If you are a travel representative or need to process Travel Card charges in OMNI, you must attend the in-person training class offered, BTTE03.

■ **Internal Controls & Fraud:** Learn what it takes to establish and maintain a sound system of checks & balances in your workplace, so that fraud and other forms of unethical behaviors are less likely to occur. This class is especially helpful for those offices

that deal with fiscal matters. This course counts toward the Frontline Leadership Certificate and the Financial Representative Certificate.

BENEFITS

>>RETIREMENT PLANNING SEMINAR: The Benefits Office will present its annual Retirement Planning Seminar on Wednesday, April 2, in the College of Medicine Auditorium. This year, the seminar will be presented in a half-day format, with identical information presented from 8:30 to 11:30 a.m. and from 1 to 3:45 p.m. Presenters will provide comprehensive information about all three state of Florida retirement plans (FRS Pension Plan/DROP, FRS Investment Plan, and ORP), retiree insurance and university retirement benefits. Also, representatives from the Social Security Administration, Capital Health Plan, and retirement investment provider companies will be available to answer questions. Because the seminar is a university-sponsored training program, attendance may be considered time worked with supervisory approval. To register, please email the Benefits Office at retirement@fsu.edu. Seminar agendas are available in the "News and Events" section of the FSU Human Resources website: www.hr.fsu.edu.

>>DOMESTIC PARTNERSHIP HEALTH INSURANCE STIPEND: The Office of Human Resources is pleased to announce the implementation of a new employee benefit, the Domestic Partnership Health Insurance Stipend (DPHIS) program. This benefit will assist eligible university employees (Faculty, A&P or USPS only) in a domestic partner relationship by defraying the cost of health insurance for domestic partners. For the purposes of this program, a domestic partner is defined as an individual who shares a committed, mutually dependent relationship with an eligible university employee. This health insurance stipend is available to eligible employees whose domestic partner does not have access to an employer-provided health insurance benefit. Eligible employees may register for coverage immediately.

More information: Visit www.hr.fsu.edu or call Kathy Gartley, Human Resources-Benefits, (850) 644-8732, or email kgartley@fsu.edu.

>>DOUBLE DEDUCTIONS FOR BENEFITS: All nine- and 10-month faculty members and seasonal employees enrolled in state health, life and supplemental benefits will have double deductions taken from their paychecks beginning with the Feb. 7 paycheck. The deductions will end on the May 2 check. These additional deductions are taken out to prepay premiums for the months of June, July, August and September. Regular deductions for these employees will resume on the first paycheck in September. Employees should review their paychecks during the double deduction period to ensure that the deductions are correct.

More information: (850) 644-4015 or insurance@fsu.edu.

>>HEALTH INSURANCE RATE INCREASE FOR PART-TIME EMPLOYEES: The Florida Legislature has approved an increase to the employer rate for health insurance effective with the April 2014 coverage date. As a result, part-time employees who have an FTE of less than .75 will see an increase in their employee health insurance premiums beginning on the March 7 paycheck.

"Poetry is about the grief, Politics is about the grievance."

— Robert Frost

If your contract with Florida State University is violated and you want more than poetic justice, you'll need to file a grievance. The **United Faculty of Florida** and its state and national affiliates are there to provide you with professional representation through university proceedings and, if necessary, the judicial system. **But UFF provides representation only if you are already a UFF member.** Everyone in the faculty bargaining unit has the right to file an individual grievance over a contract violation.

If you are not a UFF member at the time of the alleged contract violation, then **you must represent yourself** in the grievance investigation and proceedings, or retain an attorney.

You do not automatically become a UFF member when you become a faculty member. You must complete a membership form and submit it to UFF in order to become a member.

Your contract is your best protection in these times of legislative mandates and administrative restructuring. But its strength comes from enforcement. UFF has trained professionals who specialize in contract enforcement.

Join UFF and let UFF work for you ... for a better workplace and a better FSU.

UFF dues are 1% of regular salary. Please fill out the form below and return it to:

Sustainable Solutions

Incorporate wellness into your daily 'green routine' this month!

According to the Centers for Disease Control, "a positive wellness culture in the workplace contributes to the physical, mental and emotional well-being of workers. The workplace becomes more productive and constructive when employers integrate breaks for rejuvenation."

Being outdoors is a great way to reduce the stress of everyday life and maintain mental, emotional and physical wellness. Add daily fresh air breaks, take a walk at lunch, and enjoy the beautiful spring weather throughout your workday. Healthy workers are happy — and productive — workers, so make some time for wellness at work!
